
SAFE & EFFICIENT BLASTING WORKSHOP

Sweden 27th-29st of May 2015

Practical Training and Use of the Blast Design Software SHOTPlus®,
or
Electronic Initiation Systems Unitronic™, eDev™ and i-kon™

ORICA

Practical Training Workshops

Dear Reader.
It is our pleasure to invite you to participate in our specially designed workshops in Blast Design Software or Electronic Blasting Systems, which run in parallel and will be conducted in Sweden in May.
Specialists from ORICA will provide a solid source of knowledge in the field of Blast Design Software SHOTPlus® 5 and SHOTPlus® Tunnel or Electronic Blasting Systems (EBS) Unitronic™ , eDev™ and i-kon™. Of course, participants should also take this opportunity to discuss individual technical challenges.
The presentations and practical use of the Blast Design Software, or the Electronic Blasting Systems are designed to introduce all personnel involved in the blasting process to the latest State of the Art Techniques & Technology. We feel confident, that you will benefit from and appreciate your training, both from a professional and social point of view.

Best wishes,
Dr. Frank Hammelmann
